

# The 11th Asian Association of Schools of Pharmacy Conference

<b>Date:</b>	<b>4-6 August 2023</b>
<b>Venue:</b>	<b>Macau University of Science and Technology (MUST), Macau, China</b>

## Organized by:

**Asian Association of Schools of Pharmacy (AASP)**

**Medical Sciences Division, Macau University of Science and Technology (MUST)**

## Associated with:

**Macao Association of Convention Exhibition & Tourism Sectors**

## Coordinated by:

**Macau Expo Group Limited**

### Welcome Message

Asian Association of Schools of Pharmacy (AASP) is a platform established in April 2001 for accelerating the cooperative advancement of pharmacy education as well as research amongst pharmacy schools in Asia, and AASP Conference aims to address current issues in pharmacy education in Asia that Pharmacy Deans, the Faculty and the academic institutions are confronted with.

The 11th AASP Conference will be hosted by Macau University of Science and Technology (MUST) in Macau on 4-6 August 2023. Distinguished speakers will be invited from Asian countries to share their experiences. The Conference will offer a valuable opportunity for interaction and networking among academia and students from the different pharmacy schools in Asia.

President of AASP 2022-23, Prof Ken-ichi Inui looks forward to welcoming all of you at the 11th Biennial AASP Conference!

## 1. Main achievements

The 11th Asia Association of Schools of Pharmacy (AASP) Conference (AASP 2023) was successfully held at the Macau University of Science and Technology from August 4th to 6th. The conference encompassed thematic presentations, oral sessions, and poster presentations. At the event, Dr. Yi Zhun Zhu, Associate Vice President, and Dean of the Medical School (School of Pharmacy) at the Macau University of Science and Technology, served as the chair of the organizing committee. A team from Macau University of Science and Technology won the Young Scholars Competition.

Established in April 2001, AASP was co-founded by universities including the National University of Singapore, the Chinese University of Hong Kong, and National Taiwan University. Its membership comprises pharmacy schools, departments, and independent pharmacy universities across Asia, including Japan, South Korea, Singapore, India, Indonesia, the Philippines, Malaysia, Thailand, Vietnam, Iran, New Zealand, Australia, and China. AASP is a non-profit professional organization dedicated to serving its member institutions, fostering the advancement of pharmacy education and research in the Asia-Pacific region. The 2023 conference facilitated valuable interactions and exchanges among academia and students from various Asian pharmacy schools.

During the conference, a competition for young scholars was held, attracting over 60 participants from universities across Asia, including Japan, South Korea, Singapore, India, Indonesia, the Philippines, Malaysia, Thailand, Vietnam, mainland China, as well as Hong Kong, Macau, and Taiwan. Fifteen finalists were selected for the on-site final competition. Dr. Ding Qian from the team led by Dr. Yi Zhun Zhu of the Macau University of Science and Technology presented on "A First-in-class SMYD3 Inhibitor ZYZ384 Impairs Hepatocellular Carcinoma Tumor Growth in vivo via Reducing H3K4 Trimethylation of Rac1 Promoters" and received the championship for the Best Oral Presentation Award. The second prize went to a young scholar from Hong Kong Baptist University, while the third prize was awarded to a graduate student from Peking University. Dr. Lin Zhongxiao from Macau University of Science and Technology received the fourth prize, and PhD student Wang Yuchun tied for the fifth prize, with graduate student Song Wu receiving the Best Poster Award. The championship awards were presented by AASP President Professor Ken-ichi Inui from Kyoto University and AASP founder, Professor Paul Heng from the National University of Singapore.

During the event, Dr. Zun proposed plans to further promote exchanges among educators in pharmacy education across Asia and Oceania. AASP aims to facilitate greater resource sharing and provide more opportunities for teachers and students in teaching, research, and service, advancing pharmacy education and development in the Asia-Pacific region. This includes fostering exchanges and collaborations between the Asia-Pacific and various global pharmacy associations, contributing more to the overall health of humanity.

The vibrant and inspiring academic competition provided a platform for participants to engage in knowledge exchange and brainstorming, deepening scholarly discussions,

enhancing mutual understanding, and fostering collaboration. It addressed numerous crucial topics, sharing innovative concepts and cutting-edge research, serving as an opportunity for young scholars' collective growth and advancement. Looking ahead, participants aspire to sustain active academic exchanges, upholding an ethos of openness, collaboration, and innovation to drive the development of the pharmaceutical discipline, collectively facing new challenges.

As an ICCA-accredited international conference, this event held in Macau contributes to elevating Macau's ranking in the ICCA database, attracting more exhibition projects and business travelers to the region. Moreover, choosing Macau University of Science and Technology as the venue and arranging a half-day tour for attendees also contributes to the local economy.

## **2. Advancing the quality development of the exhibition and conference industry**

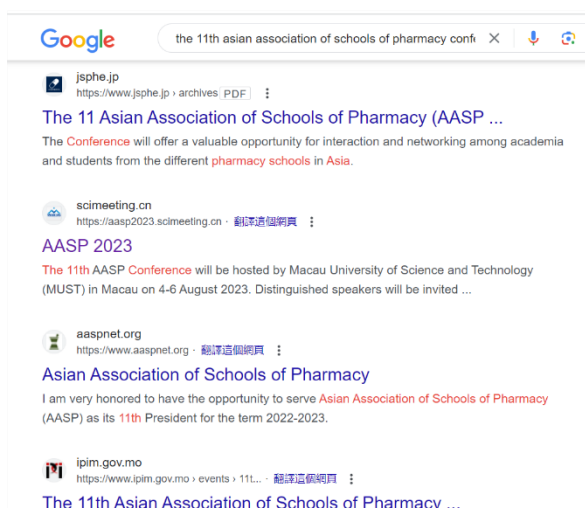

The event significantly contributed to enhancing the quality and development of the exhibition and conference industry, particularly in terms of its internationalization efforts.

### **Internationalization Strides**

Dr. Yi Zhun Zhu highlighted plans to further facilitate increased exchanges among educators in pharmacy education from Asia and Oceania. AASP aims to enhance resource sharing and provide more opportunities in teaching, research, and service, thereby propelling collective progress and development in pharmacy education across the Asia-Pacific region. Additionally, the conference served as an ICCA-certified international event, elevating Macau's international recognition and bolstering its position and influence in the global conference industry.

With participants from 14 countries and regions, this collaborative conference

significantly heightened Macau's visibility and exposure on the international stage. Information about the academic conference held in Macau is readily accessible online, greatly amplifying Macau's prominence and exposure to the international community. The event's wide-reaching participation and its recognition by the ICCA underscore its pivotal role in establishing Macau as a hub for international conferences, fostering global connections, and promoting Macau as a favorable destination for such academic and professional gatherings.

## Search hits

## Marketing Strategies

Apart from collecting exhibition fees, the event obtained financial, product, or service support for the event's expenses or equivalent value through the following commercial forms:

- Attendance fees
- Hotel room sales
- Corporate sponsorships

This conference operated on a market-oriented model by charging attendance fees and selling hotel rooms. Additionally, the conference's reputation and the high-quality attendees attracted numerous corporate sponsorships. The expansion of brand recognition was facilitated through on-site promotion, exhibition displays, and brand logo showcases. The enthusiastic registration of participants significantly contributed to the effective market operation of the conference.

## Accommodation

### Regency Art Hotel (5 Star)

Fully booked

A shuttle bus service will be provided between MUST and the Regency Art Hotel.

## Specialization Orientation

The conference featured keynote presentations, oral sessions, and poster presentations covering fields such as pharmacy practice/clinical practice, pharmaceutical technology, pharmacology/pharmaceutical chemistry, and pharmacy education. Over 130 scholars from around the world participated in this conference. A competition for young scholars was held during the event, with over 60 young scholars selected from universities across Asia, including Japan, South Korea, Singapore, India, Indonesia, the Philippines, Malaysia, Thailand, Vietnam, mainland China, as well as Hong Kong, Macau, and Taiwan. Among them, 15 finalists competed in the on-site finals.

Dr. Ding Qian from the team led by Dr. Yi Zhun Zhu at Macau University of Science and Technology presented an oral report titled "A First-in-class SMYD3 Inhibitor ZYZ384 Impairs Hepatocellular Carcinoma Tumor Growth in vivo via Reducing H3K4 Trimethylation of Rac1 Promoters" and won the championship for the Best Oral Presentation Award. The second prize was awarded to a team member from Hong Kong Baptist University, and the third prize went to a team member from Peking University. Dr. Lin Zhongxiao from Macau University of Science and Technology secured the fourth position, while PhD student Wang Yuchun tied for fifth place. And graduate student Song Wu received the Best Poster Award. The championship awards were presented by AASP President Professor Ken-ichi Inui from Kyoto University and AASP founder, Professor Paul Heng from the National University of Singapore.

## Digitization Empowerment

This conference adopted a digital submission model, allowing participants to submit the reports they intended to present online. The conference schedule was entirely digitized, enabling attendees to access the agenda using their electronic devices. The use of digital methods provided significant convenience to participants, thereby effectively enhancing their engagement and involvement in this conference. Digitization was instrumental in streamlining the submission process and facilitating easy access to conference schedules, ultimately improving the overall participation experience for attendees.

## Conference Agenda

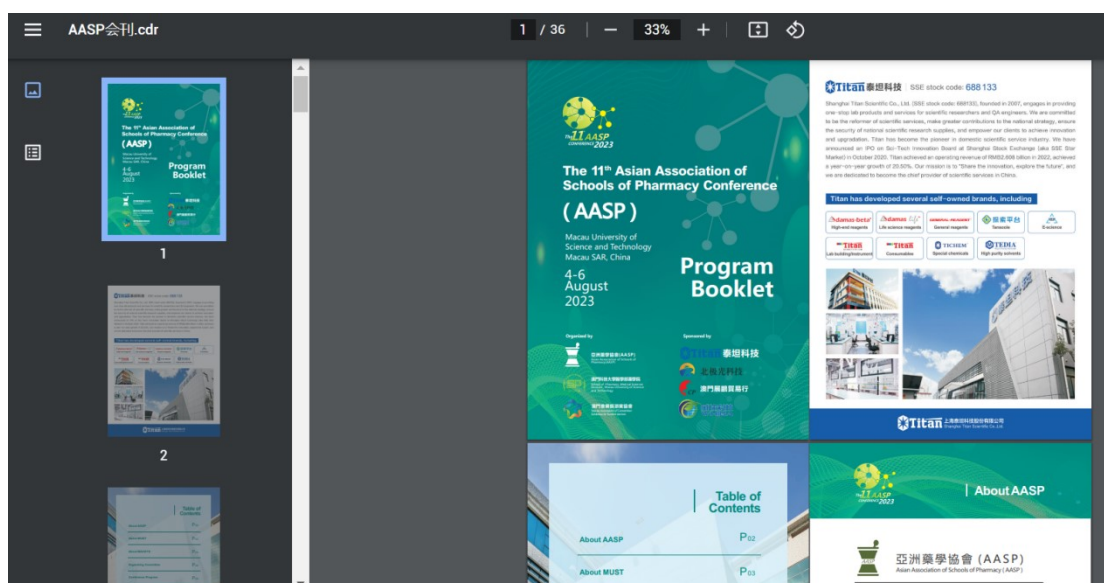

### Agenda of 11th AASP Conference

Meeting venue: Building R, Macau University of Science and Technology

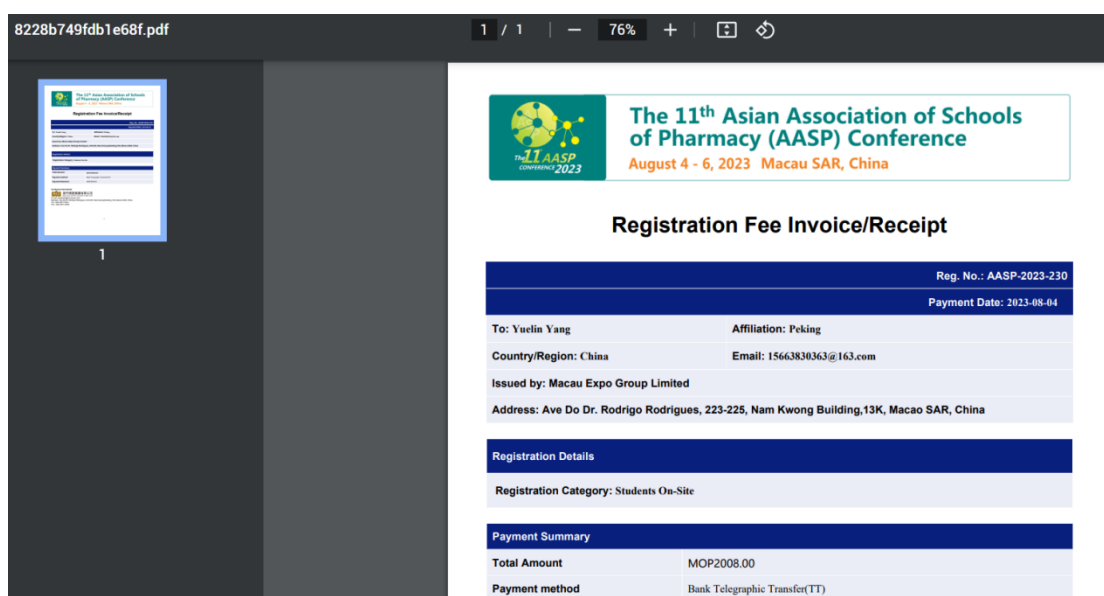

Date	Time	Activities	Location
2023-08-03	16:00-18:00	BOD meeting (BOD Members only)	A501
	19:00	Welcome dinner (BOD Members only)	The seasons
Day 1 (Aug. 4, 2023)			
	8:45-9:00	Registration and check-in	
		Opening remarks and photos	
	9:00-9:10	Prof. Ken-ichi Inui Chair Prof. Joseph Lee, President of MUST	
		Session 1	
		Keynote speech: 30 mins (25 mins presentation, 5 mins Q & A); General speech: 23 mins each (20 mins presentation, 3 mins Q & A)	
	9:10-9:40	Prof. A. Francis Stewart, Chair for Genomics at the Biotechnology Centre (BIOTEC), part of the Center for Molecular and Cellular Bioengineering at TU Dresden Title: THE RAD52 SINGLE STRAND ANNEALING PROTEIN (SSAP) SUPERFAMILY Chair: Prof. Yi Zhun ZHU	
	9:40-10:03	Dr. Dato' Abu Bakar bin Abdul Majeed, Professor, Faculty of Pharmacy, Universiti Teknologi MARA (UiTM), Malaysia Title: Looking for clues to healthy aging in Malaysia Chair: Prof. Paul HENG	

## Green Development

This conference adhered to the principles of energy conservation, environmental protection, and a low-carbon footprint, aiming to reduce the use of consumables like printed materials. By digitizing conference information and employing other eco-friendly means, the conference elevated its green standards. The reduction in the use of paper and similar materials minimized the conference's environmental impact. Furthermore, digital conference information facilitated easy access and usage for attendees, enhancing the conference's efficiency and convenience. This approach aligns with the current global trend of green development, contributing to the promotion of Macau's exhibition and conference industry towards a greener direction. It enhances the conference's sense of social responsibility and contributes positively to society.

Calls

### The 11th Asian Association of Schools of Pharmacy(AASP) Conference

#### Advances in Drug Development and Pharmacy Practice

##### Call for Papers

Asian Association of Schools of Pharmacy (AASP) Is a platform established in April 2001 for accelerating the cooperative advancement of pharmacy education as well as research amongst pharmacy schools in Asia, and AASP Conference aims to address current issues in pharmacy education in Asia the Pharmacy Deans, the Faculty and the academic institutions are confronted with. The 11<sup>th</sup> AASP Conference will be hosted by Macau University of Science and Technology (MUST) in Macau on 4-6 August 2023. Distinguished speakers will be invited from Asia countries to share their experiences. The Conference will offer a valuable opportunity for interaction and networking among academia and students from the different pharmacy schools in Asia. We look forward to seeing you at the 11<sup>th</sup> AASP Conference.

The 11th Asian Association of Schools of Pharmacy (AASP) conference will serve as a platform for academicians, researchers and postgraduate students around the world to share their latest research findings in pharmacy-related areas such as: Big Data and the pharmacy profession, drug discovery and development, pharmaceutical industry, and pharmacy education.

The main fields of submission include:

- Pharmacy practice/Clinical practice
- Pharmaceutical Technology
- Pharmacology/Pharmaceutical Chemistry
- Pharmacy Education

**Submission Information**

The deadline for manuscript submissions extends to: 5 June 2023
